

# Vijay Chavala

React.Js Developer

+917660061579 ◇ [vijaychavala.dev@gmail.com](mailto:vijaychavala.dev@gmail.com) ◇ [My Portfolio](#) ◇ [LinkedIn](#)

## SUMMARY

---

Self-motivated and detail-oriented React.js Developer with over 5.5 years of experience, including 2.5+ years in a fast-paced startup environment and 3+ years as a freelance developer. Proven ability to build dynamic, scalable web applications with clean and efficient UI. Passionate about delivering responsive, pixel-perfect interfaces and proficient in advanced state management, performance optimization, and cross-browser compatibility.

## PROFESSIONAL EXPERIENCE

---

### React.js Developer

Nov '22 — Present

Applaunch (Startup)

Bengaluru, India

Worked on multiple full-scale web applications as a core frontend developer. Responsibilities included end-to-end UI implementation, integrating APIs, managing complex state using Redux-Saga, and ensuring seamless user experiences.

- **ArticPrint**

Is a T-shirt design platform built with React.js, Redux-Saga, Styled Components, and React-Konva. It allows users to upload images, add text, layer elements, and design custom T-shirts through an intuitive drag-and-drop canvas interface.

- **WILM**

Is a React-based educational content and ticketing platform. I contributed to building multimedia uploads, nested pages, and a support ticketing system using Redux-Saga, Styled Components, and Axios.

- **MRI Essentials**

Is an orthopedic MRI educational platform. I contributed to developing the web version using React, Redux-Saga, Styled Components, and integrated Stripe for Pro-version subscriptions. The app provides quick reference material and access to over 4000 MRI cases.

- **Pool Wagers (Gaming Dashboard)**

A point-based betting app where users place predictions on games. Built the admin dashboard with features like tournament creation, odds management, user controls, and push notification system.

- **Wexxl Admin Dashboard**

Is an insurance management platform. I developed both Super Admin and Company Admin panels using React, Redux-Saga, Styled Components, and Axios for role-based operations and insurance policy management.

- **Atma Admin Dashboard**

Is a React-based admin panel for an astrology-driven dating app. I developed features for questionnaire management, user analytics using React, Redux-Saga, Axios, and Styled Components.

## EDUCATION

---

**B.Tech in Computer Science and Engineering**, Aditya Engineering College

Kakinada, India

## PROJECTS

---

### RISDT Hospital CMS

- Built responsive frontends using React, HTML/CSS, and JavaScript.

### Royal Restaurant

- Built responsive frontends using React, HTML/CSS, and JavaScript.

### GroceBuy

- Built responsive frontends using React, HTML/CSS, and JavaScript.

### Services Hub

- Built responsive frontends using React, HTML/CSS, and JavaScript.

## SKILLS

---

**Frontend Development** React.js, Redux, Redux-Saga, JavaScript (ES6+), HTML5, CSS3, Styled Components, Bootstrap, Next.js, Tailwind, Webpack, axios

**Version Control** Git, GitHub, Bitbucket, SonarQube

**Backend Fundamentals** Node.js, Express.js, MongoDB (basic understanding)

**Development Tools** Chrome DevTools, LT browser, Lighthouse
