Portfolio | GitHub | LinkedIn

PROFESSIONAL SUMMARY

React.js/Next.js Developer with **3 years 10 months** of professional experience designing, building, and optimizing high-performance web applications across B2B SaaS, enterprise, e-learning, healthcare, and e-commerce domains. Experienced in developing scalable dashboards, secure authentication and authorization workflows, real-time communication modules, REST API integrations, and modular reusable frontend architectures using **JavaScript, TypeScript, React.js, Next.js, Node.js**, and modern state management solutions. Strong focus on performance optimization, responsive UI development, clean component architecture, and delivering production-ready applications. **Available for immediate joining.**

TECHNICAL SKILLS

- **Frontend:** React.js, Next.js (App Router), JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Material UI, Shadcn/UI, Radix UI
- **Backend Familiarity (Basic):** Node.js, Express.js
- **State Management:** Redux, Redux Toolkit, Redux Saga, RTK Query, TanStack Query, Zustand, Redux Persist
- **Authentication & Security:** JWT Access/Refresh Tokens, Refresh Token Rotation, OTP Authentication, Cookie-Based Authentication, RBAC
- **Real-Time & Media:** Socket.IO, React Player, HLS Streaming, Bunny Stream CDN
- **UI, Data & Integrations:** Recharts, Leaflet, i18next, Stripe
- **Tools & Deployment:** Git, Chrome DevTools, AWS CodeDeploy
- **AI-Assisted Development:** Claude Code, Cursor, OpenAI Codex

PROFESSIONAL EXPERIENCE

APPLAUNCH TECHNOLOGIES PVT. LTD. | Bengaluru, India

React.js/Next.js Developer | November 2022 – September 2026

- Architect and engineer scalable enterprise web platforms using **React.js, Next.js, TypeScript, and Node.js** integrations within Agile development environments.
- Reduced initial page load times and improved Web Vitals through **code splitting, route-based lazy loading, and SSR/ISR strategies**.
- Design and develop modular, reusable UI components using **Tailwind CSS, Material UI, Styled Components, and Shadcn/UI**.
- Integrate REST APIs and WebSocket layers using **Redux Toolkit, RTK Query, TanStack Query, and Axios**, optimizing caching strategies to **reduce redundant network requests by 30%**.
- Implement secure authentication and authorization workflows using **JWT access/refresh token rotation, OTP validation, cookie-based authentication, and fine-grained Role-Based Access Control (RBAC)**.

- Leveraged AI-assisted development tools including **Cursor, Claude Code, and OpenAI Codex** for code exploration, debugging, refactoring, documentation, and accelerating implementation of frontend features.

FEATURED PROJECTS

ARK CLAM – Germany | Enterprise Learning Management Platform

Tech Stack: Next.js 15, React 18, Node.js, Redux Toolkit, RTK Query, Socket.IO, Stripe, HLS Streaming

- Developed a multi-tenant B2B LMS with Admin Dashboard and Employee Portal for video-based onboarding and certification tracking.
- Built application features using **Next.js App Router** and integrated recurring subscription workflows using **Stripe**.
- Implemented video-on-demand playback using **React Player and HLS streaming** with progress tracking and real-time **Socket.IO** notifications.

Zimmerei Frank – Germany | Construction Project Management Platform

Tech Stack: Next.js 16, React 19, TypeScript, TanStack Query, Zustand, React Hook Form

- Developed an operational scheduling platform replacing spreadsheet-based workflows with centralized monitoring, time-card logging, and file management.
- Built responsive, role-based dashboards for field engineers and administrative controllers.
- Developed project planning timeline interfaces and responsive on-site timesheet workflows.

KORB – Germany | B2B Wholesale & Retail Commerce Platform

Tech Stack: React.js, Redux Toolkit, RTK Query, REST APIs, Tailwind CSS, Material UI

- Architected Super Admin and Business Admin dashboards for product management, listings, multi-warehouse inventory, and corporate accounting workflows.
- Built analytical reporting dashboards using Recharts to visualize sales trends and **reduced chart render times by 50% through memoization**.
- Designed product catalogs, nested shipping-status tracking, inventory workflows, and business operations interfaces.

ExitUs – Germany | Digital Memorial Platform

Tech Stack: Next.js 16, React 19, TypeScript, TanStack Query, Zustand, Tailwind CSS, Shadcn/UI, Zod

- Developed a multilingual memorial platform with notice generation, geolocation features, and interactive partner search.
- Built a multi-step obituary generation wizard using **React Hook Form and Zod**, **improving wizard completion rates by 25%**.
- Implemented **TanStack Query** caching strategies to reduce unnecessary backend requests and improve application performance.

Wexxl Insurance – Germany

Tech Stack: React.js, Redux Toolkit, REST APIs, Tailwind CSS

- Built Super Admin and Admin dashboards for insurance operations covering policies, claims, analytics workflows, and multi-level access with RBAC.
- Engineered a dynamic insurance calculation engine to calculate premiums based on employment and income types.
- Integrated analytical questionnaires and **Recharts-based data visualization** dashboards for coverage metrics and claims processing.

ADDITIONAL ENTERPRISE PROJECTS

- **ArticPrint (React.js):** Engineered a live drag-and-drop T-shirt customizer using **React-Konva**, including image scaling, layer configuration, and interactive canvas controls.
- **MRI Essentials (React.js):** Built premium educational subscription pathways and dynamic card layouts using **React.js, Redux Saga, Node.js endpoints, and Stripe**.
- **WILM & Pool Wagers (React.js):** Developed video-based nested layouts, admin dashboards for tournament wagering logs, and operational configuration forms.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science & Engineering

Aditya Engineering College | Kakinada, Andhra Pradesh, India
